

Tung (Sylvan) Dao

+84(0)916 484 888 | 0xtungdx@proton.me | ★ My Portfolio | sylvan920 | sylvandao

Summary

Seasoned Product Director with 4+ years of experience in Web3-native ventures. Now transitioning into AI and Data Science, focusing on entry-level engineering and project management roles at the intersection of machine learning and emerging technologies.

Skills

Solidity, Python, SQL, Git, Pytorch, CNN, NVIDIA NeMo, TensorRT, Data Analysis, Azure ML, BigQuery ML

Education

WorldQuant University

Remote

M.Sc. IN FINANCIAL ENGINEERING

2024 - 2026

- **Key Modules:** Financial Markets, Financial Data, Financial Econometrics, Derivatives Pricing, Stochastic Modeling, Machine Learning in Finance, Deep Learning for Finance, Portfolio Management, Risk Management - Certificate available at [Credly](#).

Aston University

United Kingdom

M.Sc. IN APPLIED AI

2023 - 2024

- **Key Modules:** OOP Software Programming, Database Systems, Multi-Agent Systems, Machine Learning, Software Engineering, AI: Vision and Reality, Research Methods and Professional Practice.
- **Research Interests:** AI Agents, Privacy-Preserving Machine Learning - Research Statement available at [Notion](#).

National Economics University

Vietnam

B.A. IN BANKING & FINANCE

2016 - 2020

Work Experience

Webacy

Remote

WEB3 SECURITY DATA ANALYTICS EXTERN

Jul. 2024 - Aug. 2024

- Conducted detailed analysis and labeling of smart contract vulnerabilities.
- Validated peers' data labels for accuracy and reliability.
- Performed frequency and correlation analysis of risk tags.
- Demonstrated proficiency in Excel and Tableau for data analysis and visualization. - Reference: [X Spaces](#).

AMM DEX

Remote

BUSINESS LEAD

June 2024 - Aug. 2024

- Strategic Partnerships: Successfully identified, negotiated, and closed partnerships with leading Web3 players, including Pyth Network, Open Ocean, and Axelar, enhancing ecosystem integration and collaboration.
- Spearheaded initiatives within the ConsenSys Scale Program: Facilitated access to a broader ecosystem of developers and users, boosting project visibility and growth.
- Collaborated with Blockchain Foundation: Actively engaged in Linea, a cutting-edge Layer 2 solution developed by ConsenSys, driving adoption and technical integration - Reference: [X Spaces](#).

Pioneering Layer 1 Blockchain

Onsite

CORE TEAM, PRODUCT DIRECTOR

Apr. 2021 - Sep. 2022

- Spearheaded the development of a DEX + launchpad that drove "total value locked" to an all-time high of 50 million USD, as reported by [De-FiLlama](#), while leading the project to a 1000% user growth and 6000% increase in transactions within the first month.
- Secured nearly 1 million USD in funding through strategic partnerships with leading Web3 venture capital firms, surpassing performance targets and earning recognition from industry experts.

Projects & Outside Experience

Stanford's Code in Place 2025

Stanford University

STUDENT

- Demonstrated proficiency in Python programming fundamentals including control flow, loops, conditionals, and data structures such as lists and dictionaries, gained through Stanford's CS106A curriculum.

DS Prep Course 2025

Lisbon Data Science Academy

STUDENT

- Mastered Python programming, data structures, OOP, and functional programming alongside essential tools like Jupyter Notebooks, Git, and command-line interfaces. - Reference: [Github Repo](#).

Building Transformer-Based Natural Language Processing Applications

NVIDIA Deep Learning Institute (DLI)

MOOC

- Gained expertise in PyTorch for developing and fine-tuning transformer models, ONNX for model optimization, and TensorRT for deploying high-performance NLP applications on a Triton inference server - Reference: [NVIDIA Learning](#).

Binary Classification with PyTorch

WorldQuant's Applied AI Lab

STUDENT

- Developed and trained a binary image classification model using PyTorch to detect wildlife (hogs) in camera trap images. Engineered a data preprocessing pipeline with image normalization, RGB conversion, resizing, and augmentation using `torchvision`, addressing class imbalance and optimizing model accuracy.
- Implemented end-to-end deep learning workflow: dataset preparation with custom `DataLoader`, CNN architecture design, training and validation with GPU acceleration, and model evaluation via precision, recall, confusion matrix analysis, and performance visualization.

Fine-tune a LLM for Legal Document Summarization

AI Makerspace

MOOC

- Fine-tuned Meta LLaMA 3.1 8B Instruct model using QLoRA/LoRA for legal document summarization. Employed Hugging Face Transformers, PEFT, and bitsandbytes 4-bit quantization to enable efficient training on a single GPU, showcasing advanced memory optimization and prompt engineering.
- Implemented full LLM fine-tuning pipeline: dataset preparation with Hugging Face `datasets`, LoRA configuration via `peft`, training and inference workflows, and deployment-ready model pushed to Hugging Face Hub. Demonstrated strong proficiency in LLM fine-tuning, instruction tuning, and PEFT techniques.

Tokenized RWA Bootcamp by Chainlink

Online

PARTICIPANT

- Hands-on experience with blockchain development, smart contracts (Solidity), decentralized finance (DeFi) protocols, Chainlink's Cross-Chain Interoperability Protocol (CCIP), and integrating real-world data APIs for asset tokenization - Reference: [POAP](#).

Chainlink Bootcamp: Mastering DeFi, NFTs, and Cross-Chain

United Kingdom

PARTICIPANT

- Developed proficiency in Solidity for smart contract development, Chainlink's Cross-Chain Interoperability Protocol (CCIP), and integrating decentralized finance (DeFi) protocols and non-fungible tokens (NFTs) across multiple blockchain networks - Reference: [POAP](#).

Honors & Awards

2025	Scholar , Australia-Vietnam Strategic Technologies Centre	Vietnam
2024	Scholar , AWS AI & ML Scholarship – Udacity Nanodegree	Online
2024	Scholar , Cambridge Centre for AI in Medicine and Machine Learning Summer School	Online
2024	Scholar , Hi PARIS Summer School on AI & Data for Science, Business and Society	France
2024	Fellow , InteRussia Fellowship Programme in STEM	Russia
2024	3rd Cohort , Bitcoin Talents, Frankfurt Blockchain Center	Online
2023	Delegate , Harvard Project for Asian and International Relations (HPAIR)	Hongkong
2023	Scholar , British Council GREAT scholarship	United Kingdom
2023	Scholar , National University of Singapore's Enterprise Summer Programme	Singapore
